

Opportunity Management

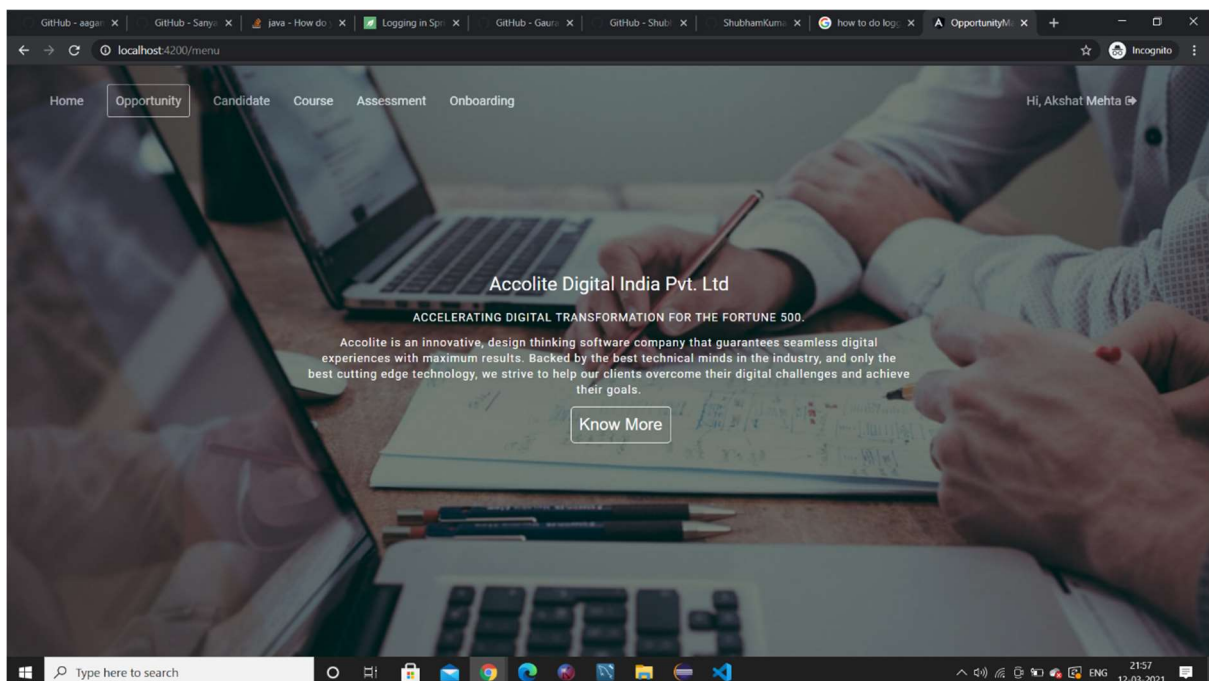

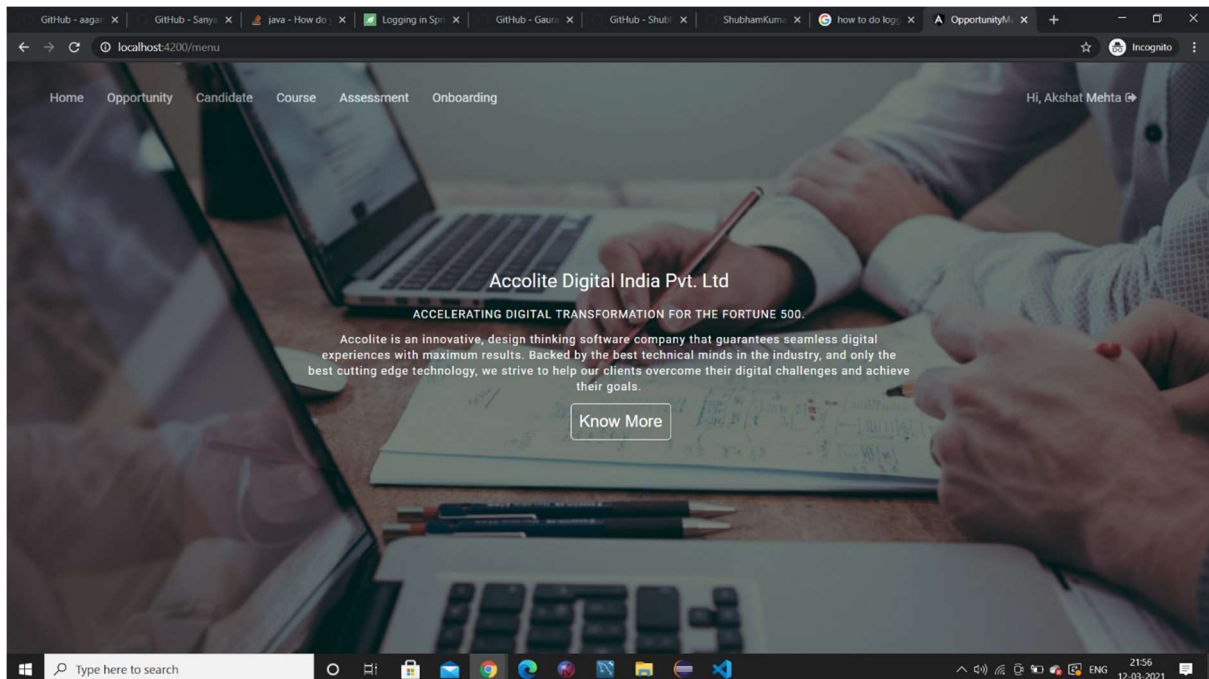

Login screen with only accolite as login id allowed which allows only accolite digital as domain.

User prompted to enter Email-ID and password and proceed forward with the application which brings user to menu page.

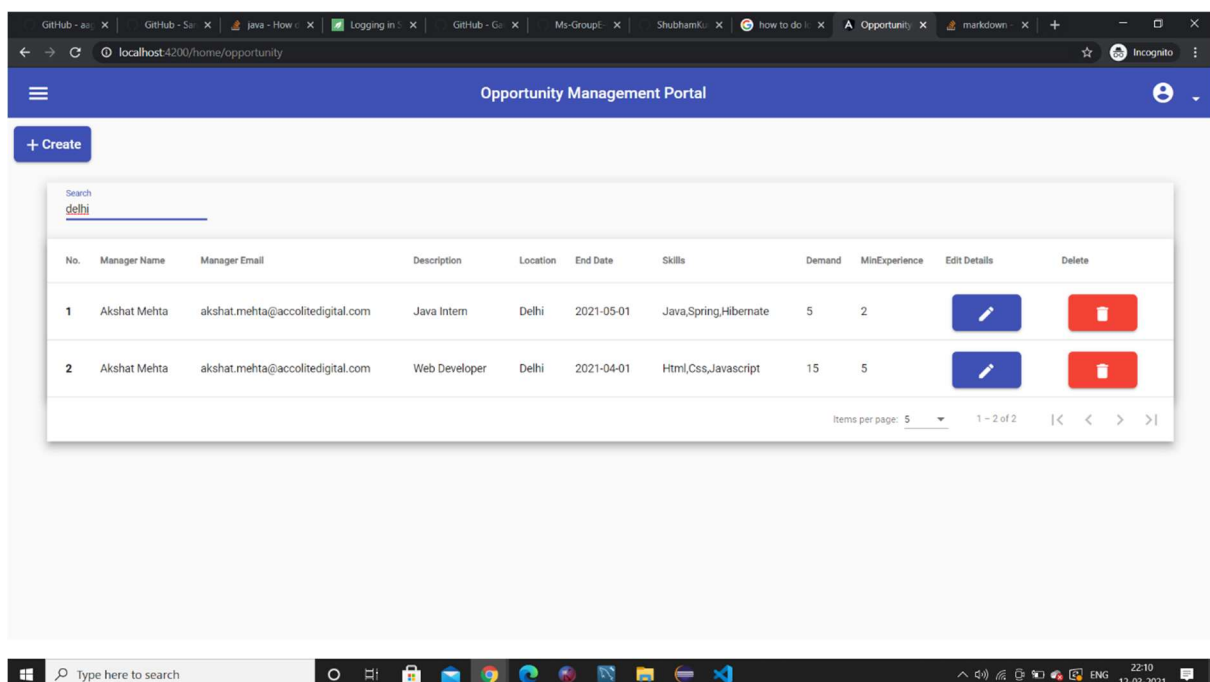

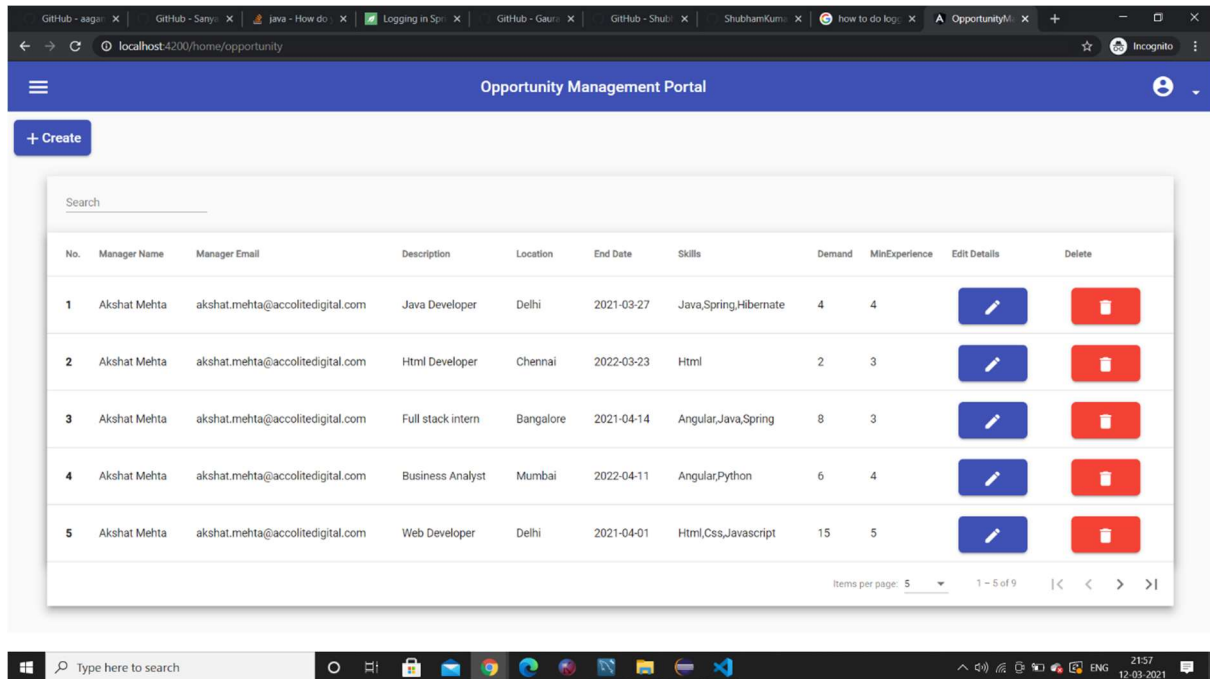

Now user lands on menu screen which basically consist of options for different modules of application such as opportunity , candidate , course and etc.

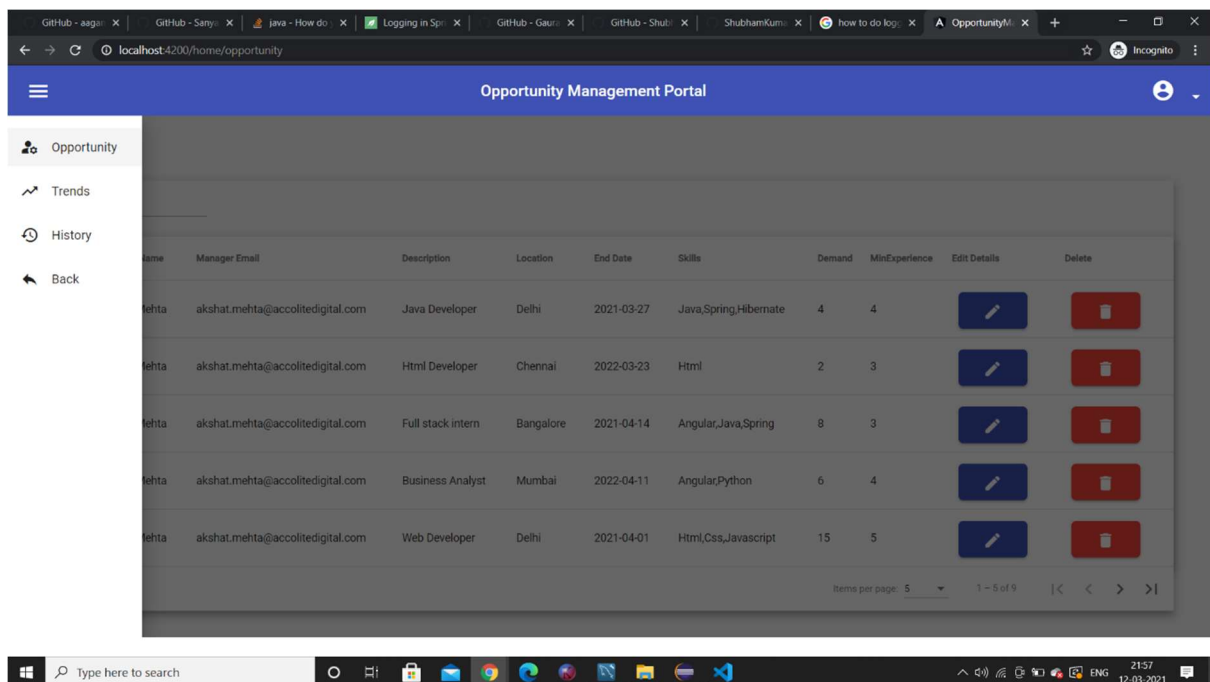

After the menu screen the user lands on opportunity module by clicking on opportunity option in menu .

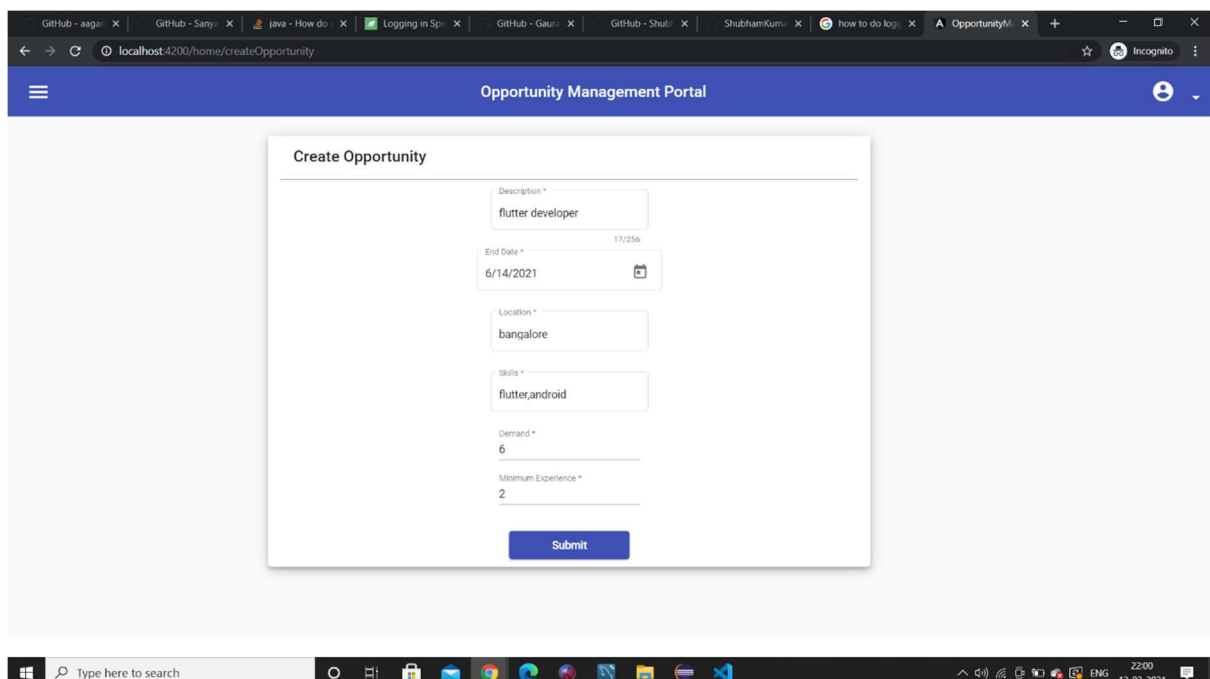

Now user lands on search screen with create and update delete functionality all integrated on same page. On searching the user sees specific result and then the hamburger icon on top-left helps user to navigate between different pages.

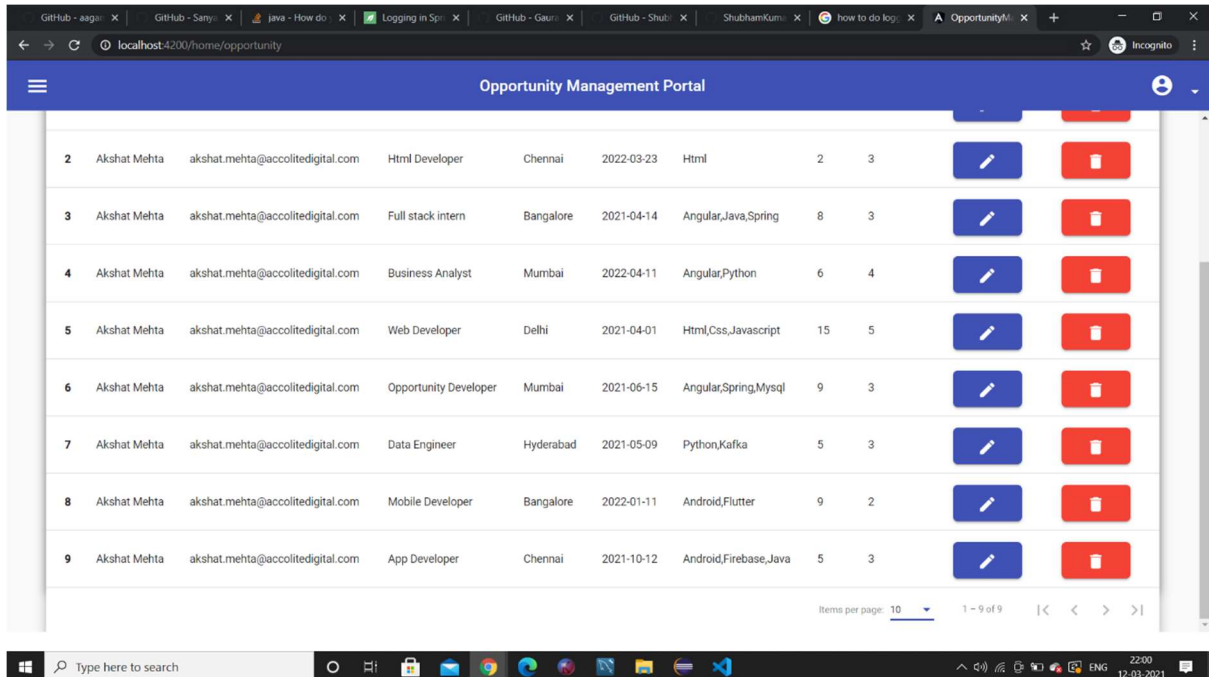

This menu helps user at ease to navigate between different parts of opportunity portal and even between menu and opportunity.

This is the page for creating new opportunity with fields as description, date, location, skills, demand and min. Experience required. After submitting the form the user get redirected to opportunity page with table showing all created opportunities and searching functionality. Even user has option of paginating the table rows.

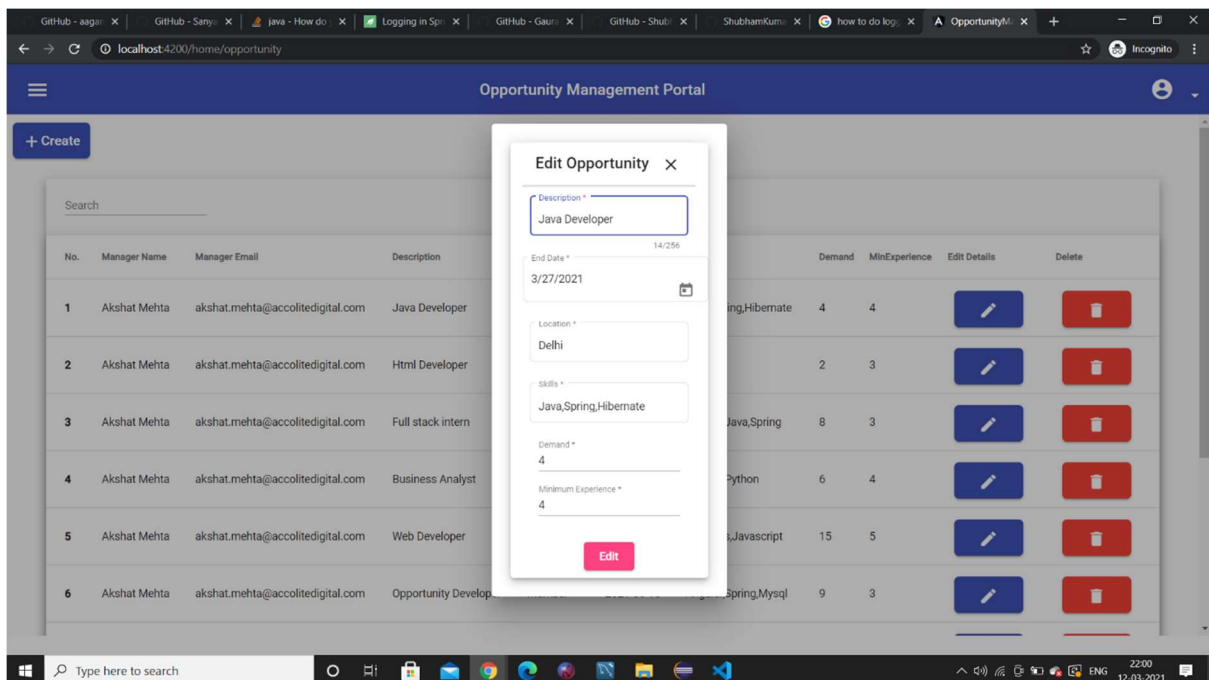

The last entry is the recent created one.
